**MWP Battle at Lake Powell
Saturday, October 2nd
Sand Devils Arena
434 S. Lake Powell Blvd.,
Page, AZ 86040**

Extend your stay and have a family vacation. This is your chance to explore amazing natural wonders that attract visitors from around the world just minutes away from Page, AZ. Here are just a few suggestions:

Antelope Canyon: This is a slot canyon, with walls as high as 4,000 feet, notable for the beautiful “flowing” appearance of the Navajo Sandstone, an impression created by the running rainwater that floods it annually during monsoon season. Please make reservations to visit Antelope Canyon well in advance.

Horseshoe Bend: As you walk along the rocks literally facing a 1,000-foot drop to the base of the canyon where the Colorado River passes through, anyone with a fear of heights may suffer here. Be fearless and be rewarded! Overcome your fear of heights and you will be rewarded with breathtaking views overlooking Horseshoe Bend.

Glen Canyon Dam: The tour of the dam is cool! In 1964, the Colorado River's roaring waters needed to be harnessed, so the towering 710-foot-tall Glen Canyon Dam was built. The resulting 186-mile-long Lake Powell, the second largest man-made lake in the US, took 17 years to fill to capacity. Today, the dam provides hydroelectric power to the American West.

Lake Powell: Lake Powell is a major vacation spot that around two million people visit every year. The long and winding Lake Powell is known for its scenic beauty and recreational opportunities including houseboating, swimming, scuba diving, snorkeling, boating, water skiing and jet skiing. You can rent Jet Skis / boats and have a blast for the day.
